# THE ULTIMATE IN DISCREET HOME SECURITY

Whether you're in the market for a forced entry resistant door, a bullet resistant door, a fire rated door or an all-in-one package, you've come to the right place. That's because a custom-made high security door or window from Obsidian Armory offers the ultimate in discreet home security. We work with some of the top security consultants, architects, and contractors across the US and around the world to provide our clients with doors and windows that meet their security requirements and suit their lifestyle. Whether it's for the front of your home, your safe room, bedroom, or place of business, we can provide a tailor made solution that blends in with your existing design and architecture. It's military grade security - at your door.

## KEY SECURITY FEATURES

- Individually formed frames with stainless steel threshold
- Triple-hinges with chrome-plated finishing caps
- Drill resistant manganese plates to protect the locks
- Eight 3/4" hinge side studs
- Specially formed steel door leaf
- Double insulation seals
- Electromechanical locking system
- Biometrics Lockout feature
- And more ...

# REPLICA DOORS FOR HISTORICALLY PROTECTED BUILDINGS

## EXTERIOR DOORS

One of our core beliefs is that the secret to good security is to keep it a secret. That's because security is much harder to defeat when you can't see it and don't know what you're up against. Our custom made high-security doors and windows can be designed to look like just about anything you need, including unique wood stains, 3D millings, and custom shaped glass. We'll ensure that the only person who knows you've got a high-security door is you.

# INTERIOR DOORS

Whether for your condo, bedroom or saferoom door, we can match the other existing doors in your home to ensure that your security is as discreet as you need it to be.

## WINDOWS

Along with our range of security doors, Obsidian Armory designs and manufactures custom security windows such as our patented ballistic single-hung window, the only functional ballistic hung window on the market. Your home is only as secure as its weakest link, so we've expanded our product line to ensure that every point of entry is as safe and secure as an Obsidian Armory door. Every Obsidian window comes with an integrated multi-point locking system. When it comes to installation, we use the same heavy duty framing technology from our doors. We offer a range of security glass options from sledgehammer resistant P6B glass all the way to FB6 glass that will stop a round from an AK-47 or an M16 rifle. Every piece of glass is custom baked, allowing us to create unique shapes that suit your home and ensure you never have to compromise on security or style.

Every piece of glass is custom baked, allowing us to create unique shapes that suit your home and ensure you never have to compromise on security or style.

# CASE STUDIES: BEDROOM DOORS

Why the most important door in your room is your bedroom door.

- Overnight home invasion: should your home alarm go off at night, a locked bedroom door buys you additional time by sealing you in a secure environment. This allows you time to assess the situation, call the police, and retrieve a weapon without having to worry about your immediate safety.
- Safe room: your bedroom is an instinctive place to seek refuge, night or day. Protecting it with a high-security door ensures that your instincts take you to the safest room in your home.
- Travel: a bedroom is a great place to store valuables when you and your family are on the road. Even if someone breaks in, your valued possessions will remain out of reach.

## PANIC ROOMS

Popularized in the 2002 blockbuster “Panic Room,” the concept of a safe room can be traced back to the castle keep of the Middle Ages, an area of the castle designed to keep a king safe during a siege. Major advances in the materials and technology available for building safe rooms makes these spaces more secure and discreet than ever before. You can easily find yourself in a safe room without realizing the walls and floor are reinforced. A custom made Obsidian door is ideally suited for a safe room, helping ensure that the only person who knows about it is you.
